Dear Sir,

We wish to inform you that due to ongoing supply chain disruptions, there has been a sharp increase in raw material and other input costs. In view of the same, the best price we are able to offer for this part is **Rs. 13/- per piece and transport at "To-pay" basis.**

Further, owing to the present uncertainty in the market, we are presently procuring raw materials strictly against confirmed customer orders and payments. Accordingly, we regret that we are unable to extend 30 days credit terms at this stage.

We sincerely request your support in closing the order at the above price and payment terms. We value our association and assure you of our best quality and timely service despite the challenging conditions arising from the Middle East situation.

We look forward to your positive confirmation.

Subject: RFQ: Circlip

Dear sir,

Greetings !!!

We have a new requirement for the circlip drawing attached for your reference.

Kindly share the technical datasheet

Annual Volume:

Annual Volume	2025	2026	2027
Qty	5000	10000	20000

SOP: Immediate

Application: EV Vehicles

1. Techno-Commercial proposal for the complete project along with details brake up in line with settled norms
2. Please check the feasibility of manufacturing this Shaft and send us the quote. Considering the above volume.
3. Project Time plan
4. Feasibility &AOI sing-off
5. As this part is very critical to our part, it is important that part should meet as per drawing with consistent quality.

If any clarification contacts me.
